*"The first essential for the child's development is concentration. The child who concentrates is*

*immensely happy."* Dr. Maria Montessori

Welcome back everyone!.... It is hard to believe that we are over half way through the year!

## **This Week...**

### ● **Group time -**

children shared stories about their holidays. The prepared Montessori environment is a place where the child's development needs are met. It provides the opportunity for the child to develop their potential and to satisfy their needs.

-  We welcomed **Alchemy** into our class room. She has well adapted to the environment. Well Done Alchemy!

-  Children are given a new opportunity to engage in the reading corner. Reading means of language

acquisition, of communication, and sharing information and ideas.
